

## Handout 10.1: Attitudes About Guilt Survey (AAGS)

Client Initials: \_\_\_\_\_ Date: \_\_\_\_\_

Individuals who have experienced traumatic events often experience guilt related to these events. They may feel guilty about something they did (or did not do), about beliefs or thoughts they had (that they now believe to be untrue), or about having had certain feelings (or lack of feelings). The purpose of this questionnaire is to evaluate how you feel about one (and only one) guilt issue.

Please take a moment to think about your experience. Briefly describe what happened and what you feel guilty about:

---

---

Briefly describe the negative outcomes that could have been prevented:
